SUBSEQUENT REPORT OF:

REMEDIAL WORK ☐ ALTERING CASING ☐
COMMENCE DRILLING OPNS. ☐ PLUG AND ABANDONMENT ☐
CASING TEST AND CEMENT JOB ☒
OTHER: ☐

12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

8/4/90 While attempting to resume drilling at a depth of 11667' after a bit trip, the drill pipe twisted in two and dropped approximately 60 feet. The resulting damage was several twisted joints of pipe and several breaks causing the pipe to be stacked side by side. The drilling contractor recovered all of the pipe down to 5823' but after a week long fishing effort, no more pipe could be recovered. Then 300 sx of cement was placed in the well from 5823' up to 4770'. The cement was drilled to 4816' and the well was "kicked off" at that point.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
