RE: STATE 32, #1,
UNIT K, S32, T11S, R35E

Gentlemen:

An Oil Conservation Division representative made an inspection on the above referenced plugged well site in an attempt to release the location.

However, before the location can be released the following work needs to be done.

1. Rat hole needs to be filled.
2. Cellar needs to be filled and/or levelled.
3. Pits need to be filled and/or levelled.
4. Remove fence on pits.

Please inform our office when these procedures are complete by signing the bottom portion of this letter and return it to our address listed above.

Very truly yours,

JERRY SEXTON
District I Supervisor
