RE: Recompletion  
Apache #1, Unit E, Sec. 5, T9S, R34E

Gentlemen:

Your request to produce this well during the time you are seeking to obtain waivers for the unorthodox location has been received.

We will approve the C-104 for this well as soon as you can furnish us with a gas connection date. If the unorthodox location is protested and the production rate of the well is curtailed, you will be expected to cut the well back until it is brought into balance with whatever the curtailment would allow.

Very truly yours,

OIL CONSERVATION DIVISION
