SUBJECT: C-140, Layton Enterprises, Inc., Aleshire 9 # 1

Dear Mr. Layton

The C-140 application H-0380, is being rejected because the decline curve was not based on at least 12 months of established production. The Aleshire 9 # 1 well was completed on February 19 1996 by Cobra Oil & Gas Corporation. This well produced for only 9 months from February 1996 thru October 1996. Cobra Oil & Gas Corporation filed a C-103 dated October 14, 1996 stating that the electricity was disconnected from pumping unit on October 10, 1996. A review of the C-115 submitted by Cobra Oil & Gas Corporation confirms that the last production from this well was in October of 1996. The C-115's for November 1996 thru June 1997 for Cobra indicates zero oil production, zero gas production, zero water production and zero days production.

The decline curve submitted by Layton Enterprises, Inc is in error. The C-115's on file with the OCD indicate that this well had only 9 months of established production. House Bill 65 of the 42nd Legislature of the State of New Mexico, requires that the production decline curve be based on at least 12 months of production. It is also noted that this same C-140 application H-0377 was denied September 24, 1997 for the same reason.

Please do not resubmit this to the Hobbs District Office. Since the Hobbs district has denied administrative approval, Layton Enterprises, Inc can request a hearing before an examiner.

Very truly yours

OIL CONSERVATION DIVISION
