Dear Gentlemen:

The above captioned well was plugged back to a depth of 4,198 feet on January 28, 1997 to be evaluated for the possibility of use as a saltwater disposal well. An application was made and approved by the Oil Conservation Division on October 9, 1998. The well was not converted to disposal and Cobra Oil & Gas Corporation will plug and abandon the well in accordance with New Mexico Oil Conservation Division regulations. Included is Form C-103 outlining the plugging procedure for the unplugged portion of the wellbore. Upon approval, Cobra will proceed with the plugging of the well.

Should you require additional information, please advise.

Sincerely,

A handwritten signature in black ink that reads "Rory Edwards". The signature is written in a cursive, flowing style.
