Yates Petroleum Corporation wishes to change the location of this well from: 660' FNL and 660' FWL to 660' FNL and 735' FWL to allow the rig to be skidded to the new location due to the close proximity of an overhead powerline and a buried pipeline to the well location. This skid will allow for safe working conditions for the rig when it is set up.

In a telephone conversation between Randy Patterson, of our office and Ms. Jamie Bailey of the State Land Office, Ms. Bailey concurred with the move even though this lease is expiring.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
