RE: Final approval of plugging
Bernice M. Green No. 2-J
Section 30-T8S-R38E

Gentlemen:

On March 23, 1962, an inspection was made of the location of the above captioned well. It was found that the marker was not inscribed with the exact location as prescribed by Rule 202, paragraph (a) of the Commission Rules and Regulations. This must be complied with before final approval can be granted.

Please advise when this work has been done and another inspection will be made. If the location is found to be in compliance with Commission Rules and Regulations, Forms C-103 and C-105 will be approved without further delay.

Very truly yours,

OIL CONSERVATION COMMISSION

Leslie A. Clements
Oil & Gas Inspector
