Well No. 1 (Hobbs) is located 660 ft. from {N} line and 660 ft. from {E} line of sec. 35

111 02913  
(Sec. and Sec. No.)8 South-35 East  
(Twp.) (Range)111 02913  
(Meridian)Wildcat  
(Field)Hobbsville  
(County or Subdivision)New Mexico  
(State or Territory)

The elevation of the derrick floor above sea level is 4,200 ft.

## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill with rotary tools (Yates Drilling Company) to test Rough "C" pay expected to be encountered at approximately 9800'. Will run approximately 1400' of 13 3/8" casing and cement with 350 sacks (or enough to circulate to surface); set approximately 1200' of 8 5/8" casing with 600 sacks (or enough to fill up to base of salt). If production is encountered we propose to run 14" casing to T. D. and cement with 1400 sacks (or enough to fill up to top of Abc formation).

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

## SECTION B

## CERTIFICATION

I hereby certify that the information in SECTION A above is true and complete to the best of my knowledge and belief.

Name Robert G. Hanagan  
Position  
Company Robert G. Hanagan & Vendetta, Inc.  
Date 4/28/61

I hereby certify that the well location shown on the plat in SECTION B was plotted from field notes of actual surveys made by me or under my supervision, and that the same is true and correct to the best of my knowledge and belief.

Date Surveyed April 26, 1961  
Registered Professional Engineer and/or Land Surveyor  
Certificate No. 3280

## INSTRUCTIONS FOR COMPLETION OF FORM C-128

1. Operator shall furnish and certify to the information called for in Section A.
2. Operator shall outline the dedicated acreage for *both* oil and gas wells on the plat in Section B.
3. A registered professional engineer or land surveyor registered in the State of New Mexico or approved by the Commission shall show on the plat the location of the well and certify this information in the space provided.
4. All distances shown on the plat must be from the outer boundaries of the Section.
5. If additional space is needed for listing owners and their respective interests as required in question 3 of Section A, please use space below.
