17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Gentlemen:

We shut this well in 4/29/79 when the production had fallen to .25 bbl, oil and 9 bbls. water. We recently plugged the #1 well on this lease and would like to hold this well for a SWD well for our Bate "A" Federal lease. This lease and the Bate "A" Federal lease are the same base lease.

The condition of this well is such that it will not allow damage to the producing zone or allow migration of hydrocarbons or water, or leakage of any substance at the surface.

If we do not utilize this well for a SWD, we should have it plugged within the next 12 months.

This approval of temporary
abandonment expires 5-1-80
