RE: BRADENHEAD TEST-KEMNITZ S. AFL STATE
#1, UNIT O, S31-T16S-R34E

Gentlemen:

An Oil Conservation Division Representative inspected the above well location, in an attempt to witness the annual bradenhead test that was scheduled for July 8, 1998.

Although the test was not performed, our OCD Representative reported salt water dripping out of the surface valve. The OCD requests that you perform any repairs necessary to correct the problem. In addition, contact our District I office by August 1, 1998 to reschedule the bradenhead test on the above well.

If you have any questions please call.

Sincerely,

CHRIS WILLIAMS
District I Supervisor
