General: This form is designed for subuniting proposals to perform certain work operations, and reports of such operations when completed, as indicated by Part I of this form. It is to be used for all subuniting proposals for work operations on Federal and Indian lands pursuant to applicable Federal law and regulations and if approved or accepted by the State and Indian Affairs, on certain types of work operations on State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area or regional procedures and policies, will be made known by the State and Indian Affairs, and by the appropriate Federal agency. The use of this form is required for all subuniting proposals for work operations on Federal and Indian lands.

Item 4. We are not the depressive state requirements, judgments on property or limited legal should be presented as supported by the evidence.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include specific information as required by the Code of Regulations, 30 C.F.R. 251.101. In addition, such proposals and reports should include reference to the objectives of the proposed well, the location of other wells, the type of completion, and the type of fluids contained in the well. Contents not stated off by, such as, otherwise, repairs, cave and bottom, and amount of placement of cement plugs, and or other material placed below, between and above plugs, among other methods of sealing a well.
