General: This form is designed for submitting proposals to perform certain non-operational and support or self-operational activities on behalf of the Federal Reserve Bank in order to fulfill its public and regulatory responsibilities. It is required in order to be able to carry out such activities. The use of this form and the information contained in the submitted proposals are required by state law and regulations. Any necessary special instructions concerning the use of this form and the submitted proposals are provided on the cover.

Item 17: Proposals to abandon a well and subsequent results of abatement measures shall be reported to the Department of Environmental Protection, the Department of Health, and the Department of Transportation. The Department of Environmental Protection shall determine if the well contains or is suspected of containing petroleum products, and if other hazardous liquid wastes, and when and how they are to be removed. The Department of Health shall determine if the well contains or is suspected of containing petroleum products, and if other hazardous liquid wastes, and when and how they are to be removed. The Department of Transportation shall determine if the well contains or is suspected of containing petroleum products, and if other hazardous liquid wastes, and when and how they are to be removed. The Department of Environmental Protection shall determine if the well contains or is suspected of containing petroleum products, and if other hazardous liquid wastes, and when and how they are to be removed. The Department of Health shall determine if the well contains or is suspected of containing petroleum products, and if other hazardous liquid wastes, and when and how they are to be removed. The Department of Transportation shall determine if the well contains or is suspected of containing petroleum products, and if other hazardous liquid wastes, and when and how they are to be removed.
