Sec. 12, T8S, R34E

Gentlemen:

We have received Form C-103 requesting the above-referenced well be changed from a producing oil well to a TA'd well. According to our records this well has not produced since 1990, and under our TA policy this well should have a mechanical integrity test conducted and a TA permit requested. We cannot approve a TA status for a well that has been shut in for more than one-year without demonstration of mechanical integrity of the wellbore.

Please file your intent to conduct this test as soon as possible.

Very truly yours,

OIL CONSERVATION DIVISION
