Return well to production X

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The subject well was converted from a pumping oil well to a water injection well in September of 1988. No improvements in production resulted from this conversion, and the well was temporarily abandoned in October of 1989. The well was returned to production in February of 1990. Currently, the well is being tested. Once production stabilizes, an allowable will be requested.

18. I hereby certify that the foregoing is true and correct
