17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This well was converted from oil to disposal in 1967 per NMOCC Case #3361, Order #R-3326 and has since been temporarily abandoned. It is now standing with tubing still in the hole and all surface equipment removed.

Sun Oil Company is at present attempting an economic evaluation of offset production in the Bough "B" zone before making a decision to either recomplete or plug and abandon.
