INFORMATION AND INSTRUCTIONS AS FER STATEWIDE RULE 54

LI. INCLINATION SURVEYS

A. Requirement of

1. An inclination survey made by persons or concerns approved by the Commission shall be filed on a form prescribed by the Commission to each well drilled or deepened with rotary tools or the state of a result of any operation the course of the well is changed.

a. The first shot point of such inclination survey shall be made at a depth not greater than 500 feet below the surface of the ground and succeeding shot points shall be made either at 500 feet intervals or a the nearest drill bit change thereto; but not to exceed an 30 feet apart.

2. Inclination surveys conforming to these requirements may be made either during the normal course of drilling or after the well has reached total depth. Acceptable directional surveys may be filed in lies of inclination surveys.

3. Copies of all directional to a market surveys, regardless of the reason for which they are run, shall be filled as a part of or in addition to the inclination surveys otherwise regional by this rule.

B. Reports

1. The report form prescribes of the call shall require that it be signed and certified by a party mathe process incover decret for the facts therein contained.

2. The report shall include a class of the maximum unifts which could occur between the surface and the direct shot point and each two successive shot points, assuming that the other during weyed hole between any two shot points has the dure include a classified at the lowest shot point, and the total possible to character during that all measured angles of inclination are in the place to them.

2. In addition, the report shall be accompanied by a sworn statement of the operator, or of someone acting at his direction on his be half either, (1) that the well was not intentioned, as the from vectors whatsoever or, (2) that the well was deviated at car for, with an explanation of the circumstances.

3. The report shall be filed in the Listnice of the Commission for the district in which the well is drilled, by stacking one copy to each appropriate completion form for the sel.

... The Commission may require the submitted of the original charts, graphs, or discs resulting from the surveys.
