17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

On December 10, 1975 this well was plugged and abandoned as follows:

Pulled tubing and packer

Re-ran tubing and spotted cement plug from 4250' to 4030' across all perforations

Pulled tubing above cement and pumped in gel mud and pulled tubing

Ran free point and found casing free at 570'

Went in hole with wire lines plug and set it at 3260' ~~CHANGED WITH 2 SACKS CEMENT~~

Cut 4 1/2" casing at 570' and spotted a 35 sack cement plug at the stub and at 300'

in and out of the 8 5/8" surface casing a ten sack plug and marker were placed at the surface. The 8 5/8" surface casing was left in the hole.

The cementing work was done by Halliburton.

18. I hereby certify that the foregoing is true and correct
