TYPE LOG - 15 mthly, Aston
and Fair North Fed. #1
M-26-7-35

Portion of San Andres
formation found below
anhydrite bed at 4200'

New-Mex Construction Co., Inc.
P. O. BOX 1847
HOBBBS, NEW MEXICO 88240

1-6-67

Per
Perforations are 4202-4276
as reported. The anhydrite
Zone is from 4214 to 4237.

The perforations definitely
straddle the anhydrite zone
which is in violation of
R-3153.

Called Mr Stevens with
F.A. & F. in Roswell, he stated
that he thought some remedial
work was done, but apparently
wasn't filed with O.C.C.
will call back not later
than Monday (1-10-67) *JS*
