Re: Horton Federal #12-N, Sec 30, T8S, R35E

Gentlemen:

You were granted authority to cement a string of 2 7/8" tubing from the packer setting depth to the surface in the above referenced well. This authority was granted in August, 1990.

The Oil Conservation Division recently witnessed a bradenhead test on this well and the information available indicates that the work has been completed.

Please submit a sundry notice to the BLM showing the procedure used to accomplish this and the date the work was performed.

Very truly yours

OIL CONSERVATION DIVISION
