REPAIR OR ALTER	REPAIR OR ALTER CEMENT	REPAIR OR REPAIR OF	ALTERING CASING

17. OTHER INFORMATION (If any, include a description of the work to be done, the equipment to be used, the personnel to be employed, and the estimated cost of the work.)

Original APD called for operator to circulate cement to surface on backside of 8-5/8" csg from 724' (T-8-5/8" stub) to surface. Due to wellbore mechanics during the primary, operator was unable to perform this procedure. Per phone conversation with Mr. Pete Chester of Roswell BLM office on 1/10/89, verbal approval was given to run 8-5/8" casing patch and circulate cement to surface on backside of 4-1/2" casing if ran.
