O
Attention: Mr. B. I. Miller

Gentlemen:

P
Pursuant to your letter of August 2, 1965, this is to advise that this office has no record of the Presidio Operating Company C. O. Drew Well No. 1 located in Unit J of Section 18, T-8-S, R-34-E being plugged as you outlined in your letter.

P
Y
In discussing this well some time back with Mr. Russell Estes we were told that no plugs had been set from total depth up to the base of the 4½" liner. Soon after this forms covering the setting of pipe and your Notice of Intent to Plug were submitted and approved by this office. At this time we discussed the proper plugging procedure, which was filed on Form C-103 dated March 29, 1965 and upon which we requested notification 48 hours prior to commencing so that we could witness the plugging.

Therefore, it appears to me that this well has not been properly plugged, and it will be necessary that the well be re-entered and plugged as outlined on Form C-103 dated March 29, 1965.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey
