17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

All wells are in need of maintenance. Plus one well must be tested for casing integrity. Saltwater well needs repair work. Oil prices have reduced available funds so that work cannot be accomplished presently. Efforts are under way to raise capital to return lease to productive status. No specific start date is available at this date. If oil prices stabilize at \$18 level work could start by July or August.
