On March 23, 1966, ran 355' of 8 5/8" J-55 surface casing with 175 sacks regular neat cement with 2% CaCl circulated to surface. Pressured up to 1000 psi, held for 30 minutes. Drilled cement, tested to 300 psi, cement okay. Helliburton did cementing.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
