17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well quit pumping, suspect tubing will have to be pulled to get pump out. Well is uneconomical. However, at present Kerr-McGee is planning on testing another zone in the San Andres Formation. If the test shows that the well will be able to produce economically again, then some type of remedial work will be planned.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
