17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well was drilled to 9840' T. D. without encountering commercial shows of oil or gas. Well will be plugged by placing 50 sacks cement at total depth, a 25 sack plug at the top of Wolfcamp, a 25 sack plug at the top of Abo, a 25 sack plug at the top of Tubbs, a 25 sack plug at the base of San Andres, and a 25 sack plug in and out of the bottom of intermediate casing. After pulling the recoverable intermediate casing, a 25 sack plug will be placed in top of the stub, 25 sacks in bottom of surface casing, and 10 sacks at the surface. The space between all plugs will be filled with drilling mud, and the location will be marked with a permanent steel marker. Permission to plug and abandon was obtained by telephone from Mr. Eric Engbrecht on 3-3-67.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
