

INSTRUCTIONS

37. SUMMARY OF WELL LOGS. This section should be completed and correct well completion report and log on all types of lands and leases to either a Federal agency or a State agency, or both, before any drilling or production operations are commenced. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal land office. If not filed previously, copies of all currently available logs (drillers, geologists, sample and core analysis, all types electric, etc.), formation and pressure logs, and all other data pertinent to such interval, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. All attachments should be filed with the well log.

Item 4: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 12: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 22: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 23: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 24: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 25: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 26: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 27: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 28: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 29: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.

Item 30: If the well is located on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal land office for requirements.
