17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was temporarily abandoned after it was drilled in an unsuccessful attempt to complete in the Chaveroo San Andres Pool during June, 1968. We plan to convert to water injection as follows:

- 1) Run tubing and Hookwall Tension Packer
- 2) Displace and fill annulus with corrosion inhibited water.
- 3) Set packer at approximately 4330'.

This will be a Water Injection Well operated by Skelly Oil Company for the Skelly Chaveroo Hobbs "W" Waterflood Project, approved by Conservation Commission Order No. R-3544.
