P.O. Box 1980
Hobbs, NM 88240

Dear Ms. Carpenter:

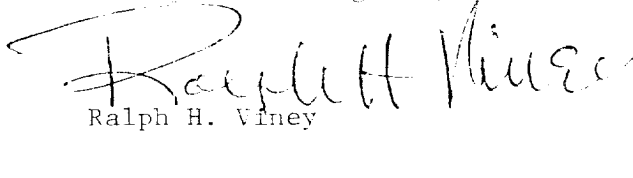

Rhonda Operating Company
Roden Bluitt Federal Lease
Bluit Field
Roosevelt County, New Mexico

Pursuant to our telephone conversation today, reference oil movement from captioned lease, we are enclosing copies of C-104 designating J M Petroleum as purchaser for this one time oil movement.

Our C-115 indicates there was 591 barrels in storage. It was necessary to treat tanks (hot oil) to bring oil to pipeline (Mobil) specifications during which treatment hole either came into storage tanks or treatment caused parafin to melt, exposing existing holes allowing oil to escape. The escaped oil was picked up and transfered along with the in stock tank oil into rental frac tanks.

We would like to move the oil as soon as possible to release rental tanks and obtain sale of the production. We will be happy to notify J M Petroleum and Mobil to make pick up when approved, or should you be able to handle notification at a local level, please advise in order that we can notify Mr. Bonnel (pumper) to coordinate with J M Petroleum's oil hauler. Many Thanks.

Best personal regards,

Ralph H. Viney
