Operator has unsuccessfully tried to pull collapsed 5½" casing which is now stuck at approximately 4200'. We request permission to re-enter the hole, set a cement plug, and drill new 7 7/8" hole from approximately 4200' to approximately 10,030' (old TD), deviating from the vertical in order to sidetrack junk in hole. Will then set casing and perforate same formation previously completed.
