17. WHEN DISCONTINUING OR HALTING OPERATIONS, Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any future work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to future work.

We moved pumping unit to test another well in April, 1989. This test is completed and the equipment will be moved back. Formation material spilling through a split in the 5 1/2" casing must be repaired in order to make pumping operation economic before the well is restored to production. We request 60 days relief for economic reasons prior to performing this work. Additionally, this lease is being evaluated for possible additional development.
