I, C. B. Laidley, being of lawful age,
do state that I am employed by Halliburton Company in the capacity
of Service Sales Engineer, and that on the 23rd day of
August, 19 71, Halliburton Company performed
a cementing service for the purpose of cementing the
production string of casing in Well Number
1 (production,
protection, surface)
Lewis Com Lease, located in
New Mexico
Roosevelt County, ~~Texas~~ for Western States Prod. Co.
(customer)

Information provided me by the customer, his agent or
representative, states that the above string of casing was size
5 1/2" O. D., set in 7 7/8 inch drilled hole, and that
casing depth set was 9660 feet.

Cement and admixes used were: 300 sacks Class "C" - Pozmix
"A", 2% gel, 11 lbs. salt, 0.75% CFR-2 per sack

Based upon the above information, according to my cement
tables, I have calculated that the above volume of cement will fill
up an annular height of 2562 feet between 5 1/2 casing and
(size) (size)
7 7/8 hole.
