13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Per conversations with Mr. Armando Lopez, Prize Operating Company respectfully request approval to Plug and Abandon the above mentioned well. Prize had previously requested approval to attempt a recompletion on the well (granted on 9-14-01), but after further evaluation the well was deemed uneconomic to attempt the recompletion. Please find attached procedure for P&A as discussed with Mr. Lopez with Prize's engineer (Bill Kreimier). If you have any questions or problems, please contact Mr. Kreimier at 817-424-0465.

14. I hereby certify that the foregoing is true and correct
