13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Objective: Fish stuck tubing and clean out well.

- 1-14-03 Rig up Five Star Well Service Rig. Killed well, ND well head and NU BOP. Pulled on tubing and released packer. Pulled packer up 6' and tubing stuck. Pro Log wireline truck ran free-point and cut tubing at 5408'. RD wireline. POH with tubing.
- 1-15-03 Rig up Pool reverse rig & swivel. TIH with Texas pattern shoe (no cutright) and 5 Jts wash pipe. Tagged fill at 5397' and washed down and over stub at 5408'. Washed down to 5420' and could not go deeper. Started circulating scale, cement, Abo shale and dolomite to the reverse pit. POOH with tools and wash pipe. PU flat bottom cutright shoe with work-horse grooves, jars, bumper sub and wash pipe. TIH with tubing and tools.
- 1-16-03 TIH with 4-7/8" cutright flat bottom shoe and wash pipe and tagged 20' high. Washed down to 5420' and recovered red shale from behind the 5 1/2" casing. Continued washing and recovered red shale and ground up metal that appeared to be casing. Slowly washed to 5423', pulled up 3', lowered back down and had 2' of fill. Cannot wash any deeper because red shale is sloughing in. Rig down reverse rig & swivel.
- 1-20-03 LD tubing, wash-pipe and tools. Released rig. Well shut in pending further evaluation.
