RE: Bilbrey #1-0
Sec. 29, T8S, R38E
Roosevelt County, NM

Gentlemen:

In 1990 you re-entered the above-referenced well to attempt a completion in the Devonian. The last report we have was Form C-103 indicating that the well had been perforated and treated and that you had shut in the well pending workover. This report was filed March 6, 1991.

According to Rule 201 you must either complete the well as a producer, obtain a TA permit, or plug and abandon the well.

Please file proper paper work to comply with one of these options as soon as possible.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
