RE: Federal 27 Com Well #1
Unit E, Sec. 27, T7S, R37E
Bluitt Siluro Devonian North

Gentlemen:

A review of production statistics indicates the above-referenced well has an allowable of 29 BOPD due to a high GOR. Your monthly production in January exceeded your allowable by 1224 B0.

Since this well has a high GOR and the allowable is limited, you are requested to monitor your production closely so you will not be excessively overproduced, and can be brought back into balance.

Very truly yours,

OIL CONSERVATION DIVISION

Supervisor, District I
