Re: Rexception to Shutin for Overproduced Casinghead Gas
North Bluit Siluro Devonian Pool
Federal 27 Com #1-E Sec. 27, T7S, R37E
Roosevelt County, NM

Gentlemen:

I cannot grant your request to return the above-referenced over-produced well to 100% of casinghead gas allowable through February. This type exception would need a hearing and that would not give you any immediate relief due to waiting period necessary for hearings.

The moratorium from shut in issued December 15, 1989, is for wells in prorated gas pools only.

If you feel temporary relief from the low production rate is warranted, I suggest you contact our director, Bill LeMay.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
