Gentlemen:

The referenced wells were recently completed in the Vada (Penn) Field and are on production. The Federal 26 #1 and Federal 34 #1 have an average daily water production rate of 30 barrels and 60 barrels respectively. This produced water is transported by truck to the saltwater disposal well listed below. The well is approved by the NMOCD (Order No R-6787).

M & G Oil, Inc.-Markham #2-SWD
Sec 11, T-9S, R-35E
Lea County, New Mexico

MWJ Producing Company requests approval of this method of disposal of our produced water from the referenced leases.

Please do not hesitate to contact me if you have any questions or need any additional information.

Very truly yours,

MWJ PRODUCING COMPANY

Stan Venable
