REPAIR WELL <input type="checkbox"/>	CHANGE PLANS <input type="checkbox"/>	(Other) Spillage of Salt Water	X

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

A salt water spillage has occurred on the Federal "28" Comm lease. The date of the spill was 10-11-89 in the AM. Approximately 4 bbls of salt water ran over the rim of the tank. The salt water soaked into the sandy soil, but some oil sediment remained. A work crew was called out on 10-11-89 to clean up and recondition the top soil and return it to its original condition.

A 300 bbl tank has been set to prevent spillage in the future. This gives us a capacity of 510 bbls total.

18. I hereby certify that the foregoing is true and correct.

SIGNED *Peter W. Chester*

TITLE Production Clerk
