Attention: Mr. Jerry Sexton

Re: Test Allowable
Federal "27" #2
Bluitt (Wolfcamp) Field
Roosevelt County, New Mexico

Dear Jerry:

Per our telephone conversation on December 30, 1993, enclosed is a completed Form C-104 asking for a test allowable for H. L. Brown, Jr.'s well Federal "27" #2. Also enclosed is a plat with the surface location marked and the 320 acre Wolfcamp Proration Unit marked.

This well was permitted in a nonstandard location for a Devonian well. The well was tested in the Devonian and deemed noncommercial. The well was subsequently tested in the Wolfcamp as a gas well. The closest Wolfcamp Pool is 3/4 mile south in the Bluitt Wolfcamp Field. This pool is on Statewide Rules. This well will also be in a nonstandard location for a Wolfcamp well. The soonest that we could get a hearing on this well in Santa Fe is February 3, 1994. Since this well is in a nonstandard location, the Commission may give it a reduced allowable. It is understood by H. L. Brown, Jr. that any overproduction based on reduced allowable will have to be made up at the time the allowable is assigned.

If you need further information, please contact me at 915/683-5216.

Yours very truly,

H. L. BROWN, JR.
