9. WELL SITE LAYOUT:

- A. Exhibit "D" shows the relative location and dimensions of the well pad, reserve pits, and major rig components. The well pad and pit area have been staked and flagged, 400' X400'.
- B. Mat Size: 245' X 180', plus 75' X 100' reserve pits.
- C. Cut & Fill: None required.
- D. The surface will be topped with compacted caliche and the pits will be plastic lined.

10. PLANS FOR RESTORATION OF THE SURFACE:

- A. After completion of drilling and/or completion operations, all equipment and other material not needed for operations will be removed. Pits will be filled and the location cleaned of all trash and junk to leave the well site in an aesthetically pleasing a condition as possible.
- B. Any unguarded pits containing fluids will be fenced until they are filled.
- C. If the proposed well is non productive, all rehabilitation and/or vegetation requirements of the rancher, James Weaver, will be complied with and will be accomplished as expeditiously as possible. All pits will be filled and leveled as soon as they are sufficiently dried.

11. OTHER INFORMATION:

- A. Topography: The well site and access road are located in the Southern High Plains (LLano Estacado) and is relatively level surface. There is an overall .7% slope to the east from a 4045.15' GL elevation.
- B. Soil: The topsoil at the well site is a fine reddish brown sandy loam of the Brownfield Fine Sands soils Series.
- C. Flora and Fauna: The vegetation cover around the existing location is a sparse to fair grass cover of three-awn, sand and spike dropseed, bluestem, grama and other misc. native grasses along with plants of mesquite, yucca, sage, shinnery oak brush, broomweed, cacti and miscellaneous weeds and wildflowers. The wildlife consists of rabbits, coyotes, rattlesnakes, lizards, dove, quail and other wildlife typical of the semi-arid desert land.
- D. Ponds and Streams: None in the immediate area.
- E. Residences and Other Structures: None in the immediate area.
- F. Land Use: Cattle grazing.
- G. Surface Ownership: The proposed well site and access road is on fee surface owned by James Weaver, Causey, NM (505/273-4237) with Federal minerals. A surface owner agreement has been made by the operator with Mr. Weaver to compensate him for surface damages and rehabilitate the surface after completion of drilling operations.
