Per verbal approval in May of 1989 Petroleum Development Corporation dug a small drainage pit 15' x 20' x 5' for periodic draining of small amounts of water produced on this lease. This well produces less than 1 BBL of water a day. Water will be drained from the knockout gun barrel tank #54821 in frequently when room is needed in this tank. This pit will be fenced w/4 strand barbwire fence and screened over the top to protect livestock and wildlife. Letter sent from Petroleum Development Corporation to your office dated 6/1/89 attached for reference.
