3894.5

(State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement-

Per instructions of Mr. Al Kieckhefer of August 20th. On the 22nd of July filled casing with cement from 2000 ft to 2150 ft the bottom of the hole cleaned out ~~permanently~~ then filled ~~bottom~~ with mud and water within ten ft of top of casing then used ten sacks of cement to finish filling the casing and cement around top pressured with 800 lbs with Halliburton pumping in the cement and pressuring the well. Went to the well yesterday and cleaned up around well and location. It is now ready for approval of abandonment.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
