

OIL CONSERVATION COMMISSION

HOBBS, NEW MEXICO

January 7, 1958

R. D. Collier
Box 798
Artesia, New Mex.

Dear Mr. Collier:

Mr. Eric Engbrecht, Oil & Gas Inspector for the Commission, has made an inspection of the location for your plugged and abandoned Gulf State No. 2 in Unit N of Section 20, T-15-S, R-31-E and has found that the cellar has caved in by the marker and that the rat holes have not been filled.

Please advise this office when this work has been done so that a final inspection may be made. It will also be necessary for you to file Form C-103 on the casing run before plugging.

Yours very truly,

OIL CONSERVATION COMMISSION
