Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the Cooperative
Producing Association State C Well No. 1 in NE/SE
Company or Operator Lease
of Sec. 36, T. 12-S, R. 31-E, N. M. P. M., Caprock Field.
Lea CHAVES County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Intend to drill all sand and shoot well; then to clean out to total depth.

Approved DEC 21 1948, 19____
except as follows:

OIL CONSERVATION COMMISSION,
By Ray Yackel
Title Oil & Gas Inspector

COOPERATIVE PRODUCING ASSOCIATION

Company or Operator
By J. O. DENTON, JR.
Position General Manager
Send communications regarding well to
Name Cooperative Producing Association
Address P.O. Box 978
Levelland, Texas

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system (1) has solutions for arbitrary values of the parameters α and β if and only if the condition $\alpha + \beta = 1$ is satisfied. This condition is also necessary for the existence of solutions of the system (1) for arbitrary values of the parameters α and β .

2. In the second part of the paper the problem of the existence of solutions of the system (1) for arbitrary values of the parameters α and β is solved. It is shown that the system (1) has solutions for arbitrary values of the parameters α and β if and only if the condition $\alpha + \beta = 1$ is satisfied. This condition is also necessary for the existence of solutions of the system (1) for arbitrary values of the parameters α and β .

3. In the third part of the paper the problem of the existence of solutions of the system (1) for arbitrary values of the parameters α and β is solved. It is shown that the system (1) has solutions for arbitrary values of the parameters α and β if and only if the condition $\alpha + \beta = 1$ is satisfied. This condition is also necessary for the existence of solutions of the system (1) for arbitrary values of the parameters α and β .
