OIL CONSERVATION COMMISSION

By Carl B. Livingston

(See Instruction on Reverse Side)

INSTRUCTIONS

This form shall be executed and filed in quadruplicate with the Oil Conservation Commission at Santa Fe, New Mexico, covering each unit from which oil is produced. A separate certificate shall be filed for each transporter authorized to transport oil from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer, and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the allowable production for one month the operator shall in lieu of filing a new certificate, notify the Oil Conservation Commission at Santa Fe, New Mexico, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil to be moved by the transporter temporarily moving oil from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil from the property named therein and shall remain in full force and effect until

- (a) Operating ownership changes
- (b) The transporter is changed or
- (c) The permit is cancelled by the Commission

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport oil.

A separate report shall be filed to cover each producing unit as designated by the Oil Conservation Commission.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial system and for providing a clear audit trail. The document also mentions that this practice helps in identifying any discrepancies or errors early on, which can then be corrected before they become a problem.

2. The second part of the document focuses on the need for transparency and accountability in financial reporting. It states that all financial statements should be prepared in accordance with the relevant accounting standards and should be subject to independent audit. This ensures that the information provided is reliable and can be trusted by stakeholders. The document also highlights the importance of disclosing any potential conflicts of interest and the role of the board of directors in overseeing the financial reporting process.

3. The third part of the document discusses the importance of maintaining adequate internal controls to prevent fraud and mismanagement. It outlines the key components of a strong internal control system, including the separation of duties, the establishment of clear policies and procedures, and the implementation of regular monitoring and review processes. The document also mentions that internal controls should be designed to be cost-effective and to provide a reasonable level of assurance against the occurrence of errors or fraud.

4. The final part of the document provides a summary of the key points discussed and reiterates the importance of adhering to these principles to ensure the long-term success and sustainability of the organization.

Delfern Oil Company, Lubbock, Texas

August 11, 1945

PLACE

DATE

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico,

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as

Delfern Oil Company, State "B" Well No. 1 in NW/4 NE/4

COMPANY OR OPERATOR

LEASE

of Sec. 1, T. 13 South, R. 31 East, N. M. P. M., Caprock Field, Chaves County.

The well is 660 feet (N) (S) of the North line and 1980 feet (E) (W) of the East line of Sec. 1, 13 South, 31 East

(Give location from section or other legal subdivision lines. Cross out wrong directions.)

If state land the oil and gas lease is No. B-8828 Assignment No. 24

If patented land the owner is

Address

If government land the permittee is

Address

The lessee is Gilberta M. Piatt

Address Santa Fe, New Mexico

We propose to drill well with drilling equipment as follows:

Rotary to 3000' Cable tools from 3000' to Total Depth

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: Bond approved and in effect

We propose to use the following strings of casing and to land or cement them as indicated:

SIZE OF HOLE	SIZE OF CASING	WEIGHT PER FOOT	NEW OR SECOND HAND	DEPTH	LANDED OR CEMENTED	SACKS CEMENT
10-3/4"	8-5/8"	25.55#	New	300'	Cemented	150
7-7/8"	5-1/2"	15. #	New	3000'	Cemented	600

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 3025 feet.
