Mr. R. R. Spurrier, Director
Oil Conservation Commission
Box 871
Santa Fe, New Mexico

Dear Dick:

I am enclosing Form C-105, Well Record, on the George P. Livermore L. S. Williams #1 Well, Caprock Pool, Sec. 3, T. 13S, R. 31E. Now the Cooperative Producing Association is requesting permission to plug this well. Do you have anything in your records showing the transfer of ownership on this well? Mr. Denton said he had mailed to Santa Fe a letter covering all the wells which they have acquired. But, due to other statements made by him I doubt the accuracy of this statement.

I am also enclosing copy of the letter which Mr. Yarbrough wrote Mr. Denton stating requirements in plugging a well, and the Form C-102 which he submitted.

If you have this letter showing all the changes to Coop. Prod. Assn. in the Caprock Pool would you mail me a copy of it at your convenience.

Very truly yours,

Cooperative Producing Association

Levelland, Texas

New Mexico Oil Conservation Commission
Hobbs, New Mexico

Attention: Mr. Roy Yarbrough

Gentlemen:

Pursuant to our recent telephone conversation we have today received from George P. Livermore, Inc. the original and two completed copies of your Form C-105 on their Williams "B" Lease, Well #1 located in the NW of the SE/4 of Section 3, Township 13-S, Range 31-E, Chaves County, New Mexico. The exact location of the well is in the center of the NE ten acres of the NW 40 acres of the SE 160 acres of the above described section.

This office recently requested permission to plug this hole and filed Form C-102, and you advised that Form C-105 was not in your possession, therefore you could not give us permission to plug the hole until you had received the enclosed papers.

We would appreciate receiving your approval of our plugging request at your earliest convenience.

Yours very truly,
COOPERATIVE PRODUCING ASSOCIATION

J. O. Denton, Jr.
