(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

May 16, 1955

Well No. 1 is located 430 ft. from [N] line and 2310 ft. from [W] line of sec 33 of 33

(1/4 Sec. and Sec. No.) 13-S 31-E N.M. Principal Meridian

(Twp.) (Range) (Meridian)

Brickey Chaves New Mexico

(Field) (County or Subdivision) (State or Territory)

The elevation of ~~the exterior floor~~ ^{ground level} above sea level is 4163 4 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This location is a re-stake of a location. The former location was 330 FSL and 2310 FSL of Section 33, T4S. 13-S, Rge. 31-W, or 100 feet to the South of this re-stake, and was approved for drilling by transmittal letter dated May 11, 1955, from the U.S.G.S. The reason for a change of location is because of a large gully or draw, which would make leveling operations extremely difficult for drilling. In all other respects, the drilling plan is the same as that filed for the former location.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
