If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Northland plans to expand the current Rock Queen, Drickey Queen and West Cap Queen waterflood operations to include more injection wells and producing wells. Therefore it is requested that Northland be allowed to retain the well in it's present status for a maximum of one year pending completion of our engineering evaluation and implementation of operation for rejuvenation of the Queen Sand water flood.
