**DETAILS OF WORK**

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

**Rig up well service unit on November 14, 1962 and pull rods and tubing out of hole. Pumping unit was moved on November 12, 1962.**

**This well's production had declined well below the economic limit and the equipment was needed in another location. We propose to leave this well shut-in until it becomes eligible for conversion to water injection.**

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
