Hobbs, New Mexico

Attached is a note from Harvey W. Taylor, a rancher, who owns the land under these plugged wells in the Caprock field. He has signed the attached note saying he owns all the surface equipment, battery, flow lines, etc.; therefore, when you inspect this lease, give us until October 1 to finish our work, this equipment will not be removed since he owns it.

A handwritten signature in dark ink, appearing to read "L. B. Burleson", with a long horizontal flourish extending to the right.
